Company mission

Our mission is centered around improving the lives of individuals through integrated services in education and healthcare. At RBMR HEALTH CARE COUNCIL, we aim to:

1. **Provide Quality Education for All:** We are dedicated to ensuring that every individual has access to quality education regardless of their socioeconomic background. By offering RBMR Educational Institutions as a franchisee model, we create opportunities for local institutions to provide an affordable, quality curriculum. Our programs are designed to foster academic growth, critical thinking, and holistic development.
2. **Empower Through Holistic Healthcare:** We aim to offer accessible healthcare services to those who otherwise may not have access to quality medical care. Through the RBMR health care Center franchisee, we provide free health checkups, health consultations, diagnostic services, and preventive care, ensuring that individuals in remote areas or under served communities receive the healthcare they need.
3. **Promote Sustainable Organic Living:** Our RBMR Health Card is central to our approach of integrating organic and natural health solutions into everyday life. The card provides families with access to preventive healthcare services, promoting the idea that living a healthy, organic lifestyle can reduce the need for invasive medical treatments and improve long-term well-being.
4. **Create Social Impact:** As a not-for-profit organization, our mission extends beyond just service delivery. We aim to be a catalyst for social change, empowering individuals to transform their lives through education and healthcare. We are committed to creating long-term, sustainable impact, improving the quality of life, and reducing inequalities in education and healthcare across India.
5. **Support Local Communities and Businesses:** Through the franchisee model, RBMR Foundation supports local entrepreneurs and institutions, helping them set up and run RBMR Educational Institutions and ORBMR health care Centers. This empowers individuals and local businesses to become part of the larger vision of holistic development and community welfare.

Company vision

RBMR health care council envisions a future where education and healthcare are accessible, affordable, and available to all, regardless of geographical location or financial constraints. Our vision is:

1. **Nationwide Reach in Education:** We aim to expand our educational network to every corner of India, especially targeting rural, semi-urban, and underdeveloped areas. Our goal is to create a comprehensive, accessible educational network that prepares students for future careers, enhances their skills, and provides them with the tools they need to succeed in life.
2. **A Healthier Nation through Organic Practices:** We envision a society where organic health practices, such as preventive care, healthy living, and regular checkups, are embedded in everyday life. Our medical centers will provide not just treatment but education on health maintenance, organic nutrition, and holistic wellness practices.
3. **Increased Access to Healthcare for All:** By establishing ORBMR health care Centers in under served regions, our vision is to make healthcare accessible to every individual, particularly those who cannot afford it. The Organic Health Card will act as a key tool in democratizing healthcare services and ensuring that even the most marginalized communities have access to medical checkups and health support.
4. **A Global Standard in Education and Healthcare:** We aim to create a model for education and healthcare that can be replicated globally, promoting the idea of social entrepreneurship in both sectors. We envision our organization as a leader in innovative, sustainable, and inclusive development, setting a global standard for what can be achieved through collaborative community work.
5. **Holistic Development for All:** At RBMR HEALTH CARE COUNCIL, we believe in the concept of holistic development, where education, healthcare, and sustainable living go hand-in-hand. Our long-term vision is to contribute to a society that values health, knowledge, and organic solutions as cornerstones of human development.
